## Green Urban

4 - 15

The eco-friendly option for your promotional needs.

## Stars

16 - 51

Fashionable, modern shapes and innovative fabrics.

## Active Sports

52 - 83

Sports clothes for indoor and outdoor activities.

For more than six decades Stedman® has built up a reputation for quality leisure wear. Today we supply high-quality clothing for promotions at attractive prices all over the world.

## Active Outdoor

84 - 109

Jackets and vests for outdoor action and leisure time.

## Basics

110 - 131

Basic styles made of durable ring-spun cotton.

# Green Urban

The Stedman® eco-friendly line.

For a good feeling. Our Green Urban line is made of 100% OCS-certified organic cotton. Environmentally friendly, fashionable and absolutely soft on the skin.

 **Stedman**<sup>®</sup>  
collection \_\_\_\_\_

# Organic Slub

Skin-friendly slub fabric with a texturised look, made of 100% organically grown cotton, without the use of toxic and persistent pesticides and fertilizers. Our organic products are certified to the Organic Content Standard (OCS).

### Organic Slub

Crew neck T-shirt for men and women

**100% OCS-certified organic ring-spun cotton, slub yarn; single jersey**

slub yarn for a texturised look, collar with rib binding, side seams, small size label in the collar, care label in the side seam

**ST9220**

S-XL | 130 g/m<sup>2</sup> | CASUAL FIT |  24

# Organic Cotton

Modern shapes made of eco-friendly cotton. Our durable organic cotton is 100% certified to the Organic Content Standard (OCS). This OCS certificate verifies the accurate amount of organically grown cotton in the final product. By abandoning toxic and persistent pesticides and fertilizers, we contribute to biological farming. These products are absolutely skin-friendly and offer a smooth surface: a perfect base for textile decorations.

# OUR VALUES

Be smart, be responsible and change the world by choosing the right business partners. We rely on suppliers and producers who comply with the high ethical standards of our company. Our CSR team (for Corporate Social Responsibility) monitors the production facilities in order to assure high standards in working conditions as well as environmental and social issues. We do not work with subcontractors. The CSR team screens our manufacturers with high diligence regarding work safety.

Our clothing and accessories comply with the requirements of the OEKO-TEX® Standard 100. Furthermore, we trade in accordance with the prescriptions of the Business Social Compliance Initiative (amfori BSCI).

It is our responsibility to ensure that consumers are able to rely on our product safety. We monitor the quality of our supply chain assuring that the products we sell meet all government safety and quality standards on top of our own operating principles. Our garments and accessories comply with the regulations of OEKO-TEX® Standard 100. The OEKO-TEX® system guarantees that all tested and certified textile products are free of harmful substances. We take great care to ensure that all regulations are strictly enforced.

Currently not certified, but produced according to the same strict specifications: ST5260, ST5360, ST5250, ST5350

[www.oeko-tex.com](http://www.oeko-tex.com)

The Business Social Compliance Initiative (amfori BSCI) is an initiative for companies committed to improving working conditions in their international supply chain. It is dedicated to the certification of facilities engaged in lawful, humane and ethical production. Its principles include, among others, the prohibition of forced labor, child labor, harassment and abuse. It also focuses on working hours, health and safety and the environment. Naturally Stedman® operates in a highly ethical and socially responsible manner and continuously carries out inspections to ensure that amfori BSCI's guidelines are being adhered to.

[www.textileexchange.org](http://www.textileexchange.org)

Make the switch to organic cotton and help protect and conserve our water resources, replenish and improve soil fertility, improve land quality and our planet in general. Our organic cotton is 100% certified to the Organic Content Standard (OCS). This OCS certificate verifies the accurate amount of organically grown cotton in the final product. By abandoning toxic and persistent pesticides and fertilizers, we contribute to biological farming.

# THE T-SHIRT

There's more to the T-shirt than meets the eye. For a seemingly simple garment, T-shirts come in a variety of styles, textiles, designs, and fits. Find the best possible T-shirt for your build.

## Casual Fit

The Casual Fit has a comfortable width. These styles have the traditional straight cut that has been in style since the T-shirt was born. The classic T-shaped design still plays a very important role in the promotional market.

## Regular Fit

The Regular Fit is currently the most popular shape in a T-shirt. These styles follow your body in a figure-flattering manner, without clinging to it. Styles with a Regular Fit often have side seams in order to achieve this much-loved shape.

## Body Fit

Our Body Fit styles are slim cut and rather clinging to your body. Inspired by contemporary looks they satisfy the needs of modern promotional clothing. These styles are also great to wear as another layer such as underneath a polo shirt for a little extra warmth and comfort.

## Oversized Fashion Fit

The concept of oversized clothing has taken over the fashion industry and we too love these clever tailored, chic shirts with great freedom of movement, yet completely fashionable. See our Oversized Fashion Fit Stedman® T-shirts on pages 33, 38 & 39.

# FABRICS

Our selection of fashionable high-quality fabrics with unique properties and a great wearing comfort.

## Ring-spun Cotton

Cotton is a soft, absorbent and breathable natural fibre, making it the perfect choice for clothing worn close to the skin. T-shirts made from cotton fabric are very airy, durable and easy to clean. For our entire Stedman® collection, we only use high-quality ring-spun cotton. Ring-spun yarn is made by twisting and thinning the cotton strands to make a very fine, strong, soft rope of cotton fibres. Ring-spun cotton T-shirts are significantly softer, more durable and last longer than their regular counterparts.

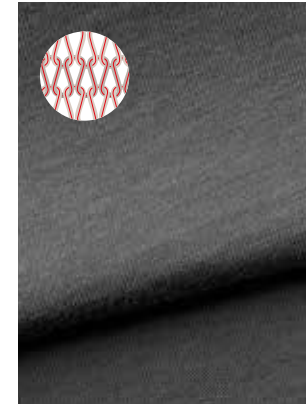

## Organic Cotton

Organic cotton is grown without the use of pesticides, herbicides or other chemical fertilizers and is therefore particularly gentle on people and nature. All styles of our Green Urban line are made of 100% OCS-certified organic ring-spun cotton. Environmentally friendly, fashionable and absolutely soft on the skin. These styles offer all the advantages of a classic promotional T-shirt and at the same time the good feeling of having made a small contribution to environmental protection.

## Elastane

Elastane is a durable, highly elastic material that returns to its original shape after each stretch. For our Stedman® collection we use the “full feeder” technology, allowing elastane to evenly spread over the entire surface of the fabric. This leads to a high wearing comfort and a smooth surface that is excellent for printing.

## Viscose

Viscose is a high-quality material made from the natural raw material cellulose. The fibre is very soft to the touch, moisture absorbent and very breathable. It can be both glossy and matt and thus take on the look of wool, silk or cotton. T-shirts with a viscose share drape fluidly around your body, creating a premium wearing-comfort as well as an elegant, flattering silhouette.

### ACTIVE-DRY° Polyester

Stedman®'s ACTIVE-DRY° polyester is a quick-drying fabric with great moisture-control that is soft to the touch and very elastic. Therefore it is perfectly suitable for sports and functional clothing. The airy fabrics are very moisture-wicking and provide a pleasant feeling even during intensive workouts. T-shirts made of ACTIVE-DRY° polyester offer not only great wearing comfort, but also ideal conditions for various textile finishings.

### Nylon

Nylon fabrics are smooth, moisture-wicking and very durable, making them the perfect choice for athletic and outdoor clothing. Nylon is one of the lightest textile fibres and at the same time one of the strongest. Thanks to its high elasticity and moisture-wicking properties, nylon textiles offer great wearing comfort and excellent freedom of movement. In the Stedman® collection you can find nylon in sports shirts, padded jackets and vests.

### Softest Shell

The outstanding properties of our Softest Shell styles are their low weight and the combination of two layers of clothing in one. Softest Shell combines an outer layer to protect against wind and weather with an inner mesh layer. Thus, Softest Shell products are wind-, water- and dirt-repellent. The pleasantly elastic material ensures a high level of wearing comfort.

### Fleece

Fleece jackets are popular and indispensable companions in everyday life or for outdoor activities, as they provide strong insulation and can absorb and release moisture very well. They are light, breathable and keep you pleasantly warm even in cooler weather. There are many different kinds of fleece fabrics. The Stedman® collection includes Micro Fleece, Knit Fleece, Melange Fleece and Power Fleece.

### Polyurethane (leather-look)

Polyurethane fabrics are durable and abrasion-resistant, yet soft, light and breathable. As such, they are used to create more comfortable and sophisticated weatherproof clothing that is even washable at 40°C. Thanks to the high-quality polyurethane, our Biker Jackets do not only look like leather, but also have similar stretch, stiffness and permeability properties like genuine leather jackets.

The PEFC Council (Programme for the Endorsement of Forest Certification schemes) is an independent, non-profit, nongovernmental organization, founded in 1999 which promotes sustainably managed forests through independent third party certification. The PEFC provides an assurance mechanism to purchasers of wood and paper products that they are promoting the sustainable management of forests.
